

Modern Radiological Trends in Dentistry and Maxillofacial Surgery (Lecture)

D. A. Lezhnev, V. V. Petrovskaya

Moscow State University of Medicine and Dentistry named after A. I. Evdokimov, Ministry of Healthcare of Russia, Department of Radiology

Abstract

The article presents the modern trends of radiology development, demonstrates the features and the capabilities of different modalities in maxillofacial imaging. A technological outlook for planning and monitoring of treatment in dentistry and maxillofacial surgery is described. The aspects of development and implementation of advanced technologies are disclosed.

Key words: Digital Radiography, Microfocus Radiography, Computed Tomography, Medical Radiation, Dentistry, Maxillofacial Surgery.
